

# Installation guide for the MSC

Jan-Mathis Hein

**Westfälische  
Hochschule**

**FRIEDRICH-SCHILLER-  
UNIVERSITÄT  
JENA**

# Download the MSC

- Go to the MSC GitHub repository by following this link  
<https://github.com/zielesny/MSC>
- Download the MSC by clicking on the **Clone** button and then the **Download ZIP** button
- Then go to the folder to where the file was downloaded to and extract the ZIP-file
- Navigate to the “installation” folder and move the “MSC\_1.0” folder to a destination of your choosing

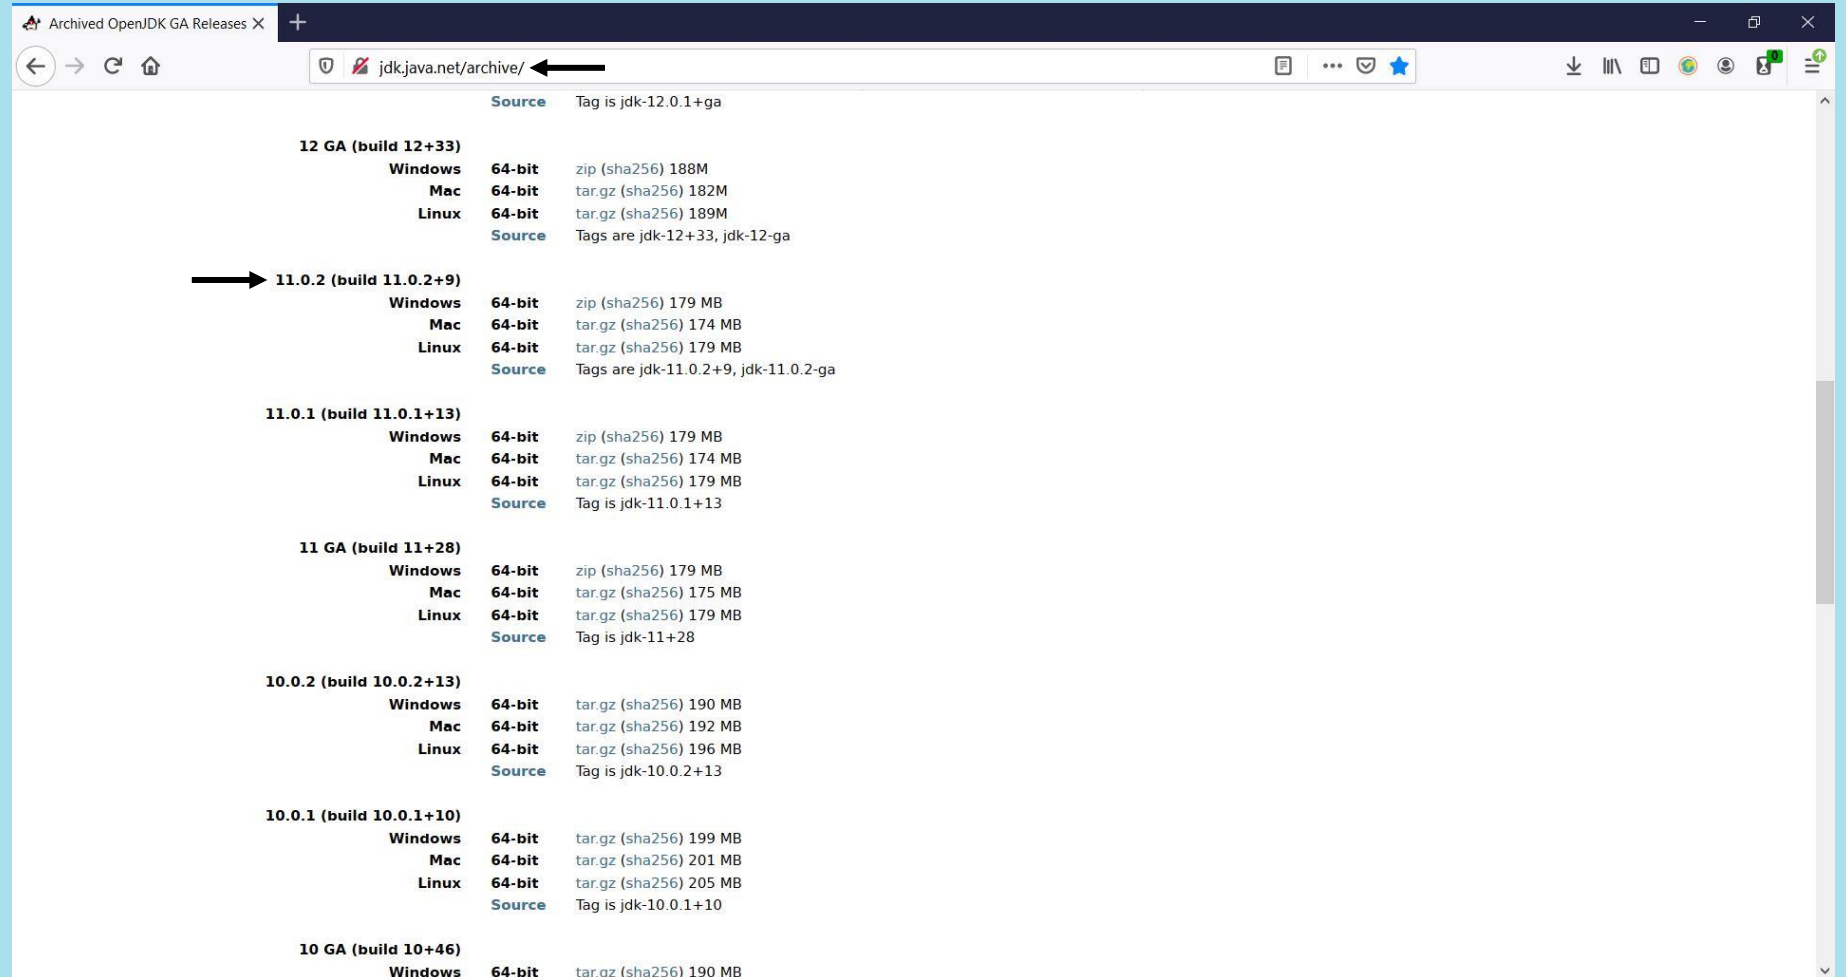

The screenshot shows the GitHub repository page for 'zielesny / MSC'. The repository is on the 'master' branch. The file list includes:

File/Folder	Commit Message	Commit Date
Gradle Project for Netbeans	MSC Version 1.0	27 days ago
Tutorial	MSC Version 1.0	27 days ago
installation/MSC_1.0	MSC Version 1.0	27 days ago
lib	MSC Version 1.0	27 days ago
src	MSC Version 1.0	27 days ago
LICENSE	Initial commit	27 days ago
README.md	MSC Version 1.0	27 days ago

The README.md file is open, showing the title 'Molecule Set Comparator (MSC)'.

# Download the OpenJDK

- Go to the website of the OpenJDK by following this link  
<http://jdk.java.net/archive>
- Select the download for the version "11.0.2 (build 11.0.2+9)" for your operating system (OS)

# Download the OpenJDK

- After the download has finished extract the zip or tar file (depending on your OS) and copy the contents of the extracted "jdk-11.0.2" folder (for Windows and Linux) or the "jdk-11.0.2.jdk" folder (for Mac) into the "jdk-11.0.2" folder in the "MSC\_1.0" folder

# Start the MSC

- To start the MSC execute one of the "MSC\_<OS>" files, where <OS> should be your operating system
- In the "Tutorial" folder a short introduction to the MSC ("MSC\_1.0\_Tutorial.pdf") and an application example of the MSC ("MSC\_Application\_Example.pdf") can be found
